Snow Shoe Town Dull Owing to Strike Among Lehigh Coal Company's Employees-New Bridge on the Pennsy-Interesting Case.

MANY SUMMER VISITORS. HERE.

A trip up Snow Shoe mountain and a visit to the little town nestling at the very top cannot help but be fraught with much that is interesting and full of pleasure, especially in summer time, at least so thought the writer as he journeyed up the mountain Monday morning under the watchful eye of Conductor Martin Reese.

Leaving Bellefonte at 9:53 we made connection at Snow Shoe Intersection and were soon enjoying some of the grandest scenery on God's footstool. On the train with us was Mr. Fleisher, of Philadelphia, whose family are spending the summer at the Bush House, also a gentleman who had traveled quite extensively but whose name we did not learn. He said that he had traveled all over the world and never saw grander scenery.

The Penney has just about completed a new iron bridge to take the place of the old wooden structure which had seen its best days. It is called the Beech Creek bridge. At this point an amusing incident occurred. There was a newly wedded couple on the train, evidently from the country, and when they reached the bridge the groom asked Conductor Reese if he would not stop the train and let them walk around the bridge. Mr. Reese told them he could not do that and added "you might as well die now as any time." The groom said "we do not want to die now." They were really frightened and held each others hands until the bridge was crossed.

At Snow Shoe we made John Uzzle's famous hostlery our headquarters and found the accommodations excellent. Mr. Uzzle's place is as popular as ever. He, however, is interested in farm and coal lands, and still has his famous deer park.

We noticed an old man walking past the hotel the other morning, who proved to be Levi Quick, Snow Shoe's oldest citizen. Although 87 years old he is still hale and hearty and goes out pruning fruit trees in the Spring.

The strike among the Lehigh Valley Coal miners is making things dull here. The company is putting in new tipples and running machinery and it is hoped will start soon. When the mines are all running they pay out $60,000 a month here to labo

Blair Yarnell, the postmaster, has built a new home here which is very fine. It is built of hollow tile.

Thomas Hoover, who lives on the pike going to Bellefonte reports rattlesnakes as very plenty this summer. In the lumber job where he works they have killed 70. He killed ten himself and has quite an exhibition of rattles.

A case in court which created quite a sensation here when first discovered was the Cemetery Association vs Kelly Brothers. We do not know the merits of the case but it is alleged that one of their coal mines extended under the graveyard and undermined the graves.

Snow Shoe has a rattling good base ball team. W. A. Sickle is manager and W. Irving, Captain. Base ball enthusiasm is at a high pitch. Last Saturday they played Milesburg at Milesburg and defeated them 9 to 6. The Snow Shoe battery was Parks and Stover and for Milesburg, Green and Johnson.

The Catholics are arranging for a big picnic here on Labor Day, Sept. 7.

Dr. H. W. Tate and wife, M. C. Gephart and wife, C. M. Parrish, and wife, Miss Gussie Farrell, Pottsville; and Mrs. Harmer, of Philadelphia, made a driving party from Bellefonte who spent Sunday at the Mountain House.

Misses Jessie and Maude Schwer, of Peale, and Mabel and Bertha Strohecker of Trenton, N. J., are guests of W. A. Sickle.

Mrs. Clayton Poorman, of Tyrone, was a guest at the Mountain House several weeks but has returned home.

Mrs. Chas. Lingle of Milesburg, is a guest at T. B. Buddingers.

Mrs. McKernan and daughter of Philipsburg, are at J. P. Irwins.

Miss Moffit of Harrisburg, is at W. C. Snyders.

Miss Julia Gilliland, of Karthaus, is visiting R. C. Gilliland.

Hurrah For the Knights of Golden Eagles.

The Susquehanna District of the Knights of the Golden Eagle of Pennsylvania, composed of the Counties of Centre, Clinton, Lycoming, Potter, Northumberland, Columbia and Union meets in Bellefonte on Monday, September 7th (Labor Day) and the Eagles are on the fly and will surely be in Bellefonte on the day named, and Bellefonte will see the largest parade of Eagles ever seen in Central Pennsylvania, as thirteen Castles and two commanderies have notified the local authorities that they will be here in bodies and a number of bands will be in line from Centre and other counties, a number of these organizations are coming to compete for some of the numerous prizes offered by the local management. If the weather is favorable this will be the largest gathering of this fraternal order that was ever held in Centre County.

The Trades Union will also turn out and take part in this parade and form one division.

A public meeting will be held in the Court House at eleven o'clock on said day which will be addressed by Sir Knight W. Harrison Walker, Chief Burgess of Bellefonte and other Grand Castle officers. After the parade in the afternoon competitive drills by the visiting commanderies for the prizes for the best drilled commanderies will take place, which alone is worth coming to see, and special trains will be run.

In the evening there will be a session of the Grand Castle in Bellefonte Castle rooms at which time the Past Chiefs degree will be conferred on Sir Knights entitled to receive the same.

See the Eagle swoop down on Bellefonte.

Christian Endeavor Convention.

The eleventh annual convention of the Centre County C. E. Union, to be held in the Presbyterian church at Milesburg during September 2nd and 3rd, promises to far surpass all conventions yet conducted by the Union.

The number of delegates already expected far exceeds the registration of last year, which was more than double that of any previous convention.

Almost every society is preparing to capture some one of the banners.

The program has been prepared with a view of helping young Christians to become efficient workers in Christ's church. It includes, besides many ministers and prominent C. E. workers from our own county, Dr, H. H. Stiles, of Altoona; Rev. S. S. Bergen, of Petersburg; Rev. J. Mitchell, of Houtzdale, and Rev. William Stickle, of Millroy.

The Sunrise prayer meeting, on the subject, "The Great Life Purpose," will be in charge of Rev. Lathrop, of Milesburg.

The Junior Rally, presided over by Rev. Luther DeYoe, Junior Sup't of the Dauphin County Union, promises to be a great success. The Juniors have been for some time preparing under the direction of Mrs. R. L. Bierly and Miss Kate Baldrige.

The convention convenes at 2 o'clock on Wednesday and closes with the evening session on Thursday. A feature of the closing session will be "A Study of the Book of Acts," by Rev. DeYoe, of Harrisburg.

Entertainment may be secured for one dollar a day by notifying Mrs. Wm. B. Thomas, of Milesburg.

Friends Meeting to Be Held in Stormstown.

Friends Quarterly Meeting will be held in their meeting house near Stormstown, Centre Co., Pa. on Sept. 5, 6, and 7. Business meetings pertaining to Church affairs will be held on Saturday and Monday 5, and 7, inst.

On Sunday the 6, the usual public meetings will be held, the hours being 10 A. M. and 3 P. M., to which the public are cordially invited. Those expecting to attend are requested to note the hours named, especially that the Sunday morning service convenes at 10 A. M., and not 11 o'clock as many suppose, and to be punctual in this observance.

The Committee of arrangements also respectfully requests that family re-unions and social gatherings in the Grove be arranged at other than meeting hours.

Miller—Martin.

On Tuesday Evening Mr. Franklin Miller and Miss Mary Martin were united in marriage by Rev Father McArdle at the Catholic parsonage. A reception was held at the newly furnished home of Mr. and Mrs. Miller on Allegheny street, where many of their friends gathered to wish them unbounded happiness through life.

MADE ITS REPORT.

Board of Arbitration in Mining Controversy in Birmingham District.

THE AWARD MADE BY JUDGE GRAY

He Makes it as the Head of the Commission Which Was Appointed Some Time Ago.

VARIOUS CONCLUSIONS SET FORTH

BIRMINGHAM, Ala., August 24.—The Board of Arbitration appointed to adjust matters in controversy between coal operators and miners in the Birmingham district made its award through its chairman, Judge Gray, of Delaware, at a late hour Saturday night. After receiving the claims made by the miners and operators, respectively, the report makes the following awards :

Minimum and maximum rate of the sliding scale. The rate per ton for mining coal on the Pratt basis according to the selling price of pig iron, 47½ cents when pig iron is selling at $8 per ton, to 57½ cents when iron is selling at $11.50 per ton.

The same proportionate increase is to be given on day wages for work in and about the mines, but no increase is given by this award for narrow work.

A semi-monthly payment of wages—From and after October 1st the earnings of miners and wages of day men shall be paid semi-monthly and such commissary checks or credits as the operators may issue to their employes shall not be transferable, but shall be redeemable in goods at the respective commissaries upon which they are drawn when presented by the employes to whom they have been issued or by some member of their families.

Rates for narrow work—The total of the maximum work—on the Pratt basis—to be paid for work in headings, exclusive of air courses, shall be $2.71 per yard in lieu of $2.84 per yard, the present rate ; rates for work in air courses to remain on the present basis.

On the subject of differential between machine and pick mining the board makes no conclusion as insufficient data has been presented on which to form an intelligent award. The board suggests that a committee from both sides be appointed to make experiments and fix a differential.

Minimum Days of Labor—The award on this subject provides for a system of fines to be imposed for absence, except for sickness or after notifying and obtaining consent.

An alternative to fining is suspension from work for a fixed number of days.

Men who do not work 20 days in any month when the mine is in operation shall be fined $1 or suspended the first six days in the following month, or be assigned to another working place. The fines imposed shall be collected through the company's officers and to be paid to the secretary-treasurer of District 20 (Alabama) of the United Mine Workers of America on or before the 10th day of each month.

All this is optionable with the operator to impose fines or suspend workmen.

The differential between Pratt and other mines : The differential rate for mining coal at the Jefferson mine and the Kimberly mine of the Central Coal company shall be reduced 2½ cents per ton, the yardage at the above mines to remain at present.

Employment of boys under 14 years of age : A submission having been made by representatives of both sides to this controversy of the question of the age at which boys may be employed it is hereby awarded that on and after September 1, 1903, no boys under the age of 14 years shall be employed or permitted in the mines by any of the mine operators who are parties to this arbitration.

When differentials for thin coal are paid they shall not apply to yard prices.

Bless the Automobile.

The first "fatality" in Centre Hall on account of the automobile was recorded one day last week, when a machine of that type ran over and crushed out the life of the pet dog belonging to Shoemaker John Martz. As a dog exterminator, bless the automobile.

OSCAR HUNTER IS DEAD.

Found Dead in Bed at Snow Shoe Tuesday Morning.

"In the midst of life we are in death," the Good Book brought that verse of scripture very forcible to our memory Tuesday morning, when the sad tidings of Oscar Hunter's death reached our town.

With his wife and family sojourning at Snow Shoe at the home of Mr. and Mrs. Reeser the parents of Mrs. Hunter they were enjoying the summer up in the mountains which was such a great benefit to Mr. Hunter's health. In the twinkling of an eye he suddenly took sick on Monday and his friends did all in their power to help him, a doctor was summoned and medical treatment of the best was given him. It helped him, and about two o'clock Tuesday morning he told his friends he felt much better, and that he would go to bed and take a rest, and he did, while in that slumber God came and called him home and when they went to call him to breakfast, they were shocked to find that he had passed away.

Oscar had not been in the best of health for some time past, and he was advised by his physician to take a good rest, and for this purpose had gone to Mr. Reeser's farm near Snow Shoe where the fresh air was greatly benefiting him.

Oscar Hunter was born at the old Hunter homestead at Hunter's Park, and was about 34 years of age, he was a son of the late Benjamin and Nancy Hunter who preceded him to the other home some years ago. He worked faithfully on his fathers farm until he had grown to manhood, when he came to Bellefonte a few years ago and was made book-keeper for the Bellefonte Window Glass Company, afterwards becoming a member of the firm. He was married to Miss Minnie Reeser, who survives him with the following children, John Gilbert, Wallace and Dorothy. He was also a brother of our townsmen Robert and J. Dorsey Hunter.

The body was brought to Bellefonte on Wednesday evening on the Snow Shoe train and taken to his late home on East Curtin street. Services will be held this afternoon at 2:30 o'clock conducted by Rev. William Laurie pastor of the Presbyterian church of which the deceased was a member. Interment will take place at Hunters Park.

Funeral of Miss Cassie Derstine.

The home of William Derstine on Penn street was filled with friends of Miss Cassie Derstine on Saturday. They had gathered to pay a last loving tribute of respect to her who would soon be laid away in the tomb to await the summons of her Heavenly Father who has prepared a home for her over in the Gloryland. Miss Cassie had many friends as was clearly shown on Saturday afternoon. Her casket was completely bedecked with beautiful flowers given by those who loved her. The singing was rendered by the Lutheran choir. Rev. H. C. Holloway D. D., assisted by Rev. Schmidt conducted the services. The casket bearers were Messrs. A. A. Bell, W. I. Fleming, J. C. Weaver, Jared Harper, F. B. Stover and Wm. A. Ishler. Interment in the Union cemetery.

Parents Give Your Sons and Daughters the Very Best Education.

Parents living in the country and towns within easy access of Bellefonte should have their children take advantage of the courses of instruction offered by the Bellefonte Academy one of the most thorough preparatory schools in the country. The future will call for educated men and women in every department of life. Success will not be attained without it, you owe it to your children, to place them early in a good school and have the foundation work of their education made the very best. Don't keep them in schools inadequately equipped in teaching force or in apparatus until they have out-grown them and then expect them when entering such advanced schools as the Academy to be prepared to class with their own age, such a course is injurious to your children.

Ten teachers constitute the Faculty of the Academy and the apparatus of the school is up-to-date. Special individual attention to your children is guaranted.

Students rates on railroads, school schedule arranged to suit railroad schedules. Terms reasonable. Certificates admits to Stateand other colleges. Fall session opens Wednesday Sept. 9. For further particulars address.

IN HONOR OF WAYNE.

August 20, 1904, to Be Known as Pennsylvania Day at the Exposition.

MAD ANTHONY WON GRAND VICTORY

That Date Will be the Anniversary of the Battle of Fallen Timbers Wherein He Defeated the Indians.

MANY OTHER DATES SUGGESTED

PHILADELPHIA, Pa., Aug. 25.—The Pennsylvania Commissioners to the Louisiana Purchase Exposition are delighted with the official information received yesterday from the Louisiana Purchase Exposition Commission that August 20, 1904, has been exclusively set apart in the program of special occasions at the St. Louis Exposition for Pennsylvania Day.

This result was brought about at the request of Gov. Pennypacker, this date having been previously assigned for Swiss day. Governor Pennypacker was particularly anxious to have Pennsylvania Day mark the celebration of the victory won by Major General Anthony Wayne over the Indian tribes of the northwest at the battle of "Fallen Timbers" on the Maumee river.

Major General Wayne, a Pennsylvanian, was then in command of the armies of the United States, and the governor maintains that but for this victory over the Indians the Louisiana Purchase would have been of little avail.

Col. E. C. Culp, secretary of the committee on ceremonies of the Louisiana Purchase Commission at St. Louis, entered heartily into the efforts to have this day given to Pennsylvania alone. He had a meeting of the Swiss society of St. Louis, specially called, to consider the request of the Pennsylvania commission that they yield this day to Pennsylvania.

Although considerable literature had been distributed announcing that August 20th had been assigned to the Swiss societies of the United States the officials of those organizations finally surrendered to Pennsylvania the date originally assigned to them and accepted a new date, August 19th, for their ceremonies. In consideration of this concession the Pennsylvania Commission has agreed to co-operate with the officers of the Swiss societies in promoting the success of the Swiss Day at the Exposition.

Many other dates were suggested for Pennsylvania Day, but the executive committee of the Pennsylvania Commission finally decided upon the date recommended by Gov. Pennypacker, who made his suggestion to the committee in a letter to Henry F. Walton, chairman of the executive committee, in which he said :

"I suggest that we select for Pennsylvania Day at the Louisiana Purchase Exposition the 20th day of August, 1904, that day being the anniversary of the victory won by Major General Anthony Wayne, then in command of the armies of the United States, over the Indian tribes of the northwest at the battle of Fallen Timbers on the Maumee river. In consideration of the results of the Louisiana Purchase, this battle was of the greatest importance since it broke the power of the northwestern Indians, aided by the British, and led to the settlement of the lands secured by that purchase and the organization of the western states. The event was the more significant because of the crushing defeat which had been before inflicted upon Harmer and St. Clair.

A Little Child Drowned.

Tuesday morning the 2-years-old son of Mr. and Mrs. Andy White went to the spring near Wagner's flour mill at Roopsburg for a bucket of water and it is supposed the little fellow toppled over and fell into the water head first. At anyrate, he was missed by his parents and traced to the spring, but the body had floated out and down the stream to Gettig's slaughter-house where the searching party found him. It is a very sad affair and the parents have the sympathy of the entire community in this their bereavement.

THOMAS COATES LAID TO REST.

Impressive Services Held By Union 183 On Saturday Evening.

"Boast not thyself of tomorrow, for ye know not what a day may bring forth, for it has been appointed unto man but once to die," was the solemn and impressive scripture lesson and text of Rev. John A. Wood Jr., pastor of the Methodist church on Saturday afternoon over the remains of the late Thomas Coates of Franklin, Pa.

Thomas Coates was the unfortunate man who was suddenly killed in the freight wreck at Fowler last Thursday evening. His body was brought to Bellefonte, and on his clothing were found a set of moulders tools, a union card, and $2.02 in money. It showed on the card that the man was in good standing in the union of which he was a member. H. M. Geistwhite of Local 183 Iron Moulders Union of Williamsport came to Bellefonte and with Frank Davis of this place made all the arrangements for the burial of Mr. Coates. As stated above the services were conducted in the Lecture room of the Methodist church, and were certainly very sad. The music for the occasion was rendered by Mrs. Margaret Brachbill, Mrs. S. D. Ray, Mr. C. C. Shuey and Mr. L. A Schaeffer, Miss Grieb pianist. They sang very sweetly "Jesus Lover of My Soul" and "Abide With Me." The body rested in a black broad cloth covered casket mounted with silver and lined inside with white satin. It was completely covered with beautiful flowers, showing the brotherly love of his fellow workmen. After the services at the church the funeral cortege wended their way to the place of burial. 35 moulders from the Scale Works and Lingle's foundry followed to pay their last tribute of respect. The casket bearers were Messrs. Edward Cunningham, Weigh Cover, Fred Hart, John Geistwhite, William Cunningham and Joe McMahon. Interment was made in the Union cemetery.

Mr. H. M. Geistwhite of Local 183 Iron Moulders Union of Williamsport wishes through the columns of the REPUBLICAN, to thank all who in any way participated in helping with the funeral and especially to thank the members of the choir for their kindness.

For Farmers to Think About.

At the reunion of the Waltz family, numbering over fifteen hundred, many of whom are farmers, at Vallamont Thursday, the chief feature was the address by Walter C. Gilmore, who said that he wanted to give those present, many of whom were farmers, something to think about. The things that he wished to urge upon them were as follows : First, the importance of good roads; second, the value to a farm of a good water supply; third, the extension of the telephone to the farm; fourth, the importance of every farm having an ice house; fifth, that every farmer should take a daily paper, that he may keep in close touch with the events of the world; sixth, that they should consider the importance of having some power, wind mill or gasoline engine, for daily use; seventh, well laid out lawns, flower gardens, and other attractive things. The speaker urged that with these things, many of which were unknown to farms, the boys would want to stay on the farm, and the girls would be glad to become farmers' wives. Mr. Gilmore's remarks were eminently practical, and were listened to with the greatest attention by those present.

A Call from the Brickmakers.

Lloyd Stonebraker, Frank Clewell, William Turner, William Collins and "Captain" Zachariah Woodle, all of Sandy Ridge, made a pleasant call at our office Monday and asked us to direct them to a Union barber shop. It was an impossibility for we knew of none in our town. They were all Union men and part of a large force of brickmakers that are now out on a strike. They were all perfect gentlemen and a better crowd of fellows you wouldn't want to meet.

Fifteen thousand brickmakers are out in Pennsylvania and Centre county owns 300 of them. They say they are determined to stay out until the operators will sign their scale and take back the 100 Union men discharged. We were glad to meet you, boys, and hope you will often wend your way into our sanctum.

Wedding Announcement.

This morning at 9 o'clock Mr. R. A. Beck and Miss Elsie Eckman were united in marriage at the home of Miss Eckman's parents in Philadelphia by Rev. E. E. Houshour. Mr. and Mrs. Beck will return to Bellefonte this evening. The Coleville band has a contract on hand.

Enthusiastic Show Girls.

FACED AN OSCULATORY ASSAULT.

The Gallant Yachtsman Was Embarrassed by "Sammy" Song With Personal Variations, but Soon Recovered His Accustomed Self Composure.

Sir Thomas Lipton was visibly embarrassed the other night at the Majestic theater, says the New York Times, when Lotta Faust, who sings the popular "Sammy" song, looked at his box and smiled lovingly at him and his friends. The singer showed plainly at first that she was nervous, too, but gathered confidence and became much more at ease than was the yachtsman himself. Part of the song, as revised to fit the occasion, ran thus:

Tommy, oh, oh, Sir Tommy,
You're a dandy, from your feet up!
Tommy, when you come cruising, we scared of losing
That blessed cup.

After several encores Lotta Faust mixed the new words with the old and sang:

Tommy, oh, oh, oh, Tommy,
When you come wooing there's something doing
Around my heart.

The shouts after each verse were deafening, and everybody in the house seemed to be yelling "Lipton!" or "Sir Thomas!" Finally he rose from his seat and tossed a large bunch of American Beauties on the stage. Then the members of the Larchmont yacht club, who filled the orchestra seats, joined in and sang lustily, even if the only words they knew were "Oh, oh, Tommy."

When the automobile bearing Sir Thomas and his friends arrived at the door of the theater the Grand circle was so packed with shouting humanity that three policemen had to be brought into service to pilot the guest of the evening safely through the mob. Newsboys and messengers by the dozen flocked around and demanded to see the celebrity, and he would not go in without shaking hands with many of them. But he saw it would be an endless task and had to break away.

Inside the theater the party went to the boxes on the west side of the house, and Sir Thomas took his seat in the very front of the "Sammy" box, knowing that he was going to have to go through the ordeal of being the object of one song and 2,000 pairs of eyes. All during the performance the audience did not lose opportunities to cheer wildly, and the object of their approval smiled back his appreciation.

At the end of the second act he was especially pleased because the finale was a song in which all the men and women on the stage held English and Shamrock flags and waved them toward him. It was at this point that there was most enthusiasm.

After the comedy was all over and the throngs had filed out the guest of honor left his box and went to the stage, where he made a short speech to the players, who, still in their fantastical costumes, grouped themselves around him and cheered every word he spoke. He made complimentary remarks about the entertainment of course, and ended with this:

"I think I'm a devilish lucky fellow to get an ovation like this, and I want to say let the men take a back row now, for I'm interested in the women." Then he added, "Will the reporters please look the other way?"

At that there was a rush for first place among the chorus and show girls, and it seemed for a minute as if Sir Thomas was going to take his joys all in one big dose. But he signified that, though he was a busy man, he had time to do a job like this in fine shape, and began to shower kisses on whoever desired—and there were plenty.

Everybody on the stage was looking on and applauding each kiss, but this did not disturb the yachtsman, for he kept it up as long as there was anybody there who wanted to be kissed. One after another was saluted and stepped back smiling to give place to the next. Finally the kissing scene came to an end, much to the evident sorrow of the hero, and he turned to go. As he was leaving, some one greatly amused him by bringing an inoffensive looking actor up and saying:

"Let me present the lion, Sir Thomas."

As soon as he could tear himself away Sir Thomas accompanied John B. McDonald, the subway contractor, to the large underground station under the circle, where he looked around him and signified his wonder at the tunnel and the roominess of the accommodations. He looked at the new shining walls and was heard to remark jokingly:

"Well, it's all finished—all except the posters on the walls."

Novelty In Slot Machines.

One of the latest penny in the slot machines introduced in London supplies handkerchiefs at 2 or 4 cents apiece.

The woman's work committee of the New York state grange has issued a series of twelve leaflets of four pages each on "Child Culture Studies." Sixty thousand leaflets were printed for use in the subordinate granges.

In Harrisville township, in Michigan, there is a school building which is occupied by the public school, a church congregation and the grange. The upper story is used by the church and the grange.

And sternly they're declaring
They'll triumph or they'll die.

Long years have they been trampled
Beneath the tyrant's heel,
Long years have they been wailing
Their sorrowful appeal,
And long have Christian nations
Been slow to make reply,
Though stirred by that petition—
"Come help us or we die."

Their homes have oft been pillaged,
The wives and children slain;
The husbands and the fathers
Have struggled, but in vain.
Among them their oppressors
Have oft made havoc dire
And waged wide desolation
With gun and sword and fire.

At times in desperation
They've banded for defense
And on the cruel tyrants
Have vented hate intense,
But vain were all their efforts,
For they were overthrown,
And cruelties atrocious
Made Christian nations groan.

Though great their need for succor,
Though urgent was their cry,
The mighty Christian nations
Were slow to make reply,
For there were vows and treaties
And jealousies and greed,
And to appeals for succor
The nations gave slight heed.

And now the Macedonians
Around their leaders throng
To make a final struggle
In hope of righting wrong.
By legions they are rising;
"To arms! To arms!" they cry,
And sternly they're declaring,
"We'll triumph or we'll die!"

The Summer Boarders.

[By the man whose wife keeps 'em.]

I have to hitch the gray mare up an' fetch their trunks an' stuff
Home from the cars, me driv' there a-harkin' to their guff
About the "lovely hills so blue" an' "Oh, the sparkling air!"
An' all that city tommyrot that makes me want to swear.

They occupy the porches an' the chairs I like the best
An' use my shade to loaf in an' the hammock where I rest;
They ask me how the fishin' is an' where the pick'rel bite
Until I get so goldarn mad I just could up an' fight!

I've got to mop the kitchen floor an' fill the coal oil lamps
An' fix the swing an' shoo the flies an' go to town for stamps.
I have to wash their dishes, too, a-feelin' like a chump,
An' eat my vittles off a bench beside the back door pump.

A pretty state of things, by jinks, when men ain't got no rights
Around their homes an' has to sleep out in the hayloft nights!
A man's house was his castle once, but 'tisn't so today.
Consarn them boarders, anyway! That's all I've got to say.

COFFEE FREED OF HARM.

Dyspeptic Devotees Advised to Take It In Form of a Jelly.

Dyspeptics, to whom hot coffee after dinner is a forbidden delight, are offered a substitute in the form of coffee jelly. "Coffee," says the London Lancet, "serves an admirable purpose in dietetics, and those with whom it disagrees when taken in the form of a hot infusion will probably find a clear jelly after dinner quite satisfactory.

"Coffee, unlike alcohol, diminishes organic waste and rouses muscular energy without the collapse which follows alcoholic imbibition, and gelatin in the form of a jelly is cooling, assuages thirst, is soothing and has a tendency to absorb any excessive acidity of the stomach."

New Potato Pest.

Samuel Price, a Ravenna (O.) farmer, has discovered a new and formidable potato pest, says the Cincinnati Commercial Tribune. While inspecting a field of growing tubers he noticed large sections of dead and dying plants, due to the presence of a mosquito headed, dark bodied, quarter inch bug, which, armed with a needlelike proboscis, bores into the growing stock, from which it extracts the life juices, with fatal results. The newcomer is very lively, flies like a carrier pigeon, and all ordinary methods of warfare are futile against it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

POTENT PILL PLEASURE.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot of Albany, Ga., says "During a bilous attack I took one. Small as it was it did me more good than calomel blue-mass or any other pills I ever took and at the same time it effected me pleasantly. Little Early Risers are certainly an ideal pill." Sold by Green's Pharmacy.

SAVE THE CHILDREN.

Ninety-nine of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 705 Central St., Nashville, Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers." Kodol digests what you eat and makes the stomach sweet. Sold by Greens' Pharmacy.

—William P. Fisher, of Unionville, aged 85, is lying very ill of ailments incident to old age, and but slight hopes of his recovery are entertained. Mr. Fisher has been engaged in the nursery and fruit business all his life, and Fisher's stock had a reputation for excellence unrivaled. Mr. Fisher was born and raised where he spent his long and useful life and has always been a prominent figure there.

"I was troubled with female weakness for eight years; and suffered more than I can tell," writes Mrs. Gust. Moser of Ovando, Deerlodge Co., Mont. "My disposition was affected to such an extent that to say a pleasant word to anyone was almost impossible.

"I had two operations performed by one of the most skilled surgeons of the West, but did not get relief. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and also followed the advice given in the Common Sense Medical Adviser.

"I continued this treatment for three months, and to-day am as healthy and well as a woman can be. I cannot thank Doctor Pierce enough for his kind letters to me."

Womanly diseases, as a rule, spoil the "disposition," because of the extreme nervousness and suffering they cause. Happiness as well as health is restored to the woman whose diseased condition is cured by the use of Dr. Pierce's Favorite Prescription.

After eight years of suffering and two fruitless operations, three months' use of "Favorite Prescription" restored Mrs. Moser to perfect health. This great remedy for woman's ills, establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Death of Aaron Weaver.

Aaron Weaver died at his home in Aaronsburg Monday morning of heart failure. Mr. Weaver was born near Aaronsburg December 10, 1832, and at the time of his death was aged 69 years, 8 months and 7 days.

He was married to Susan Krape and their union was blessed with three children, two sons, Elmer, of Akron, Ohio; James, of Aaronsburg, and one daughter, Mrs. R. W. Mensch, of Aaronsburg. Two brothers, Frank and William, and one sister, Mrs. Jessie Wert, preceded him to the great beyond. One brother, Israel, is still living.

Mr. Weaver was a respected citizen in the community in which he lived, and he will be greatly missed in the church in which he took so active a part.

Funeral services were held Thursday morning. Services in the Lutheran church at Aaronsburg, and interment in the Lutheran cemetery.

Water Craft at World's Fair.

ST. LOUIS, August 22.—Electric launches, large electric barges, Venitian gondolas and a large number of other small craft will ply the mile of waterways at the World's Fair next year.

The large boats will run over regular courses carrying passengers between landings which will be supplied in various parts of the grounds. The lagoons reach every portion of the "main picture" of the Exposition, passing by the facades of many of the big exhibit palaces and offering an unexampled view of the cascades and fountains. The Intra-mural railroad and the miniature railway do not reach this district so that the water transportation will be an attractive means of travel in the "main picture."

The electric launches will carry about 22 persons each, the barges 70 persons each, and the picturesque gondolas with singing and playing gondoliers, will carry from 6 to 20 persons each. The latter will be rented by the hour. All boats will be equipped with awnings. Besides these boats there will be operated a fleet of water craft of all nations, including the house-boat of China, the Balso of India, the out-rigger of the South Sea Islands, the surf-boat of Hawaii, the canoe and dug-out of the American Indian and the Catanaran of Australia.

Novelty boats designed to represent peacocks, swans, sea serpents and other real and fabled beings will also be operated. Special boats, decorated and equipped with music and singing gondoliers, will be maintained for private boating parties, which will be a society feature of the Exposition.

THE FEAST OF DOLLS.

A Great Event Every Year For Little Girls In Japan.

Every little boy or girl ought to live in Japan, for the children in that country certainly do have the best kind of times. Once a year there is what they call O Hina Matsuri, or feast of dolls. Every girl on that day puts on her loveliest kimono and gums and dresses her hair into a stiff bow to look like a shining black butterfly. Then she impatiently awaits the coming of her little friends, who, with herself and parents, get out the sacred dolls which have belonged to the family perhaps for centuries. What dolls they are—emperors and empresses, with their courts, all gorgeously dressed, carrying umbrellas, mirrors, musical instruments and even silver chopsticks!

When the dolls have been arranged the children, squatting gracefully on the floor, draw lots for the honor of serving the emperor and empress dolls with sake and sweet rice cakes made in the form of dolls.

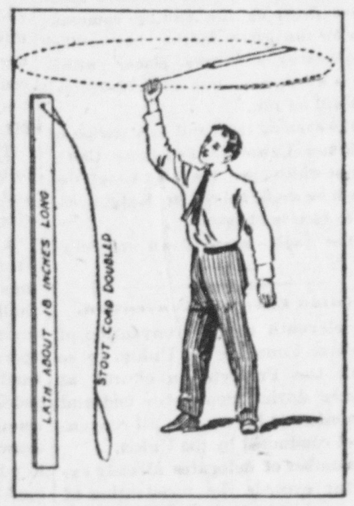
This knotty point being decided, they play a charming game of make believe, in which they entertain the Son of Heaven, as the real emperor is called, at a sake party.

At night the streets are decorated with lanterns in the form of dolls, and everybody presents everybody else with a doll. There are performing dolls after the manner of our Punch and Judy shows, and every kind of fun goes on.

The feast lasts three days and is the event of the year for the little girls in the Land of the Rising Sun. The boys have their holiday on May 5, when warlike toys are the order of the day.

A Noise Maker.

Most boys like noise and like to make it, too, and if you will promise to use it where it will not annoy your parents or the neighbors we will tell you how to make a toy that will make all the noise you want. Take a lath about



WORKING THE NOISE MAKER.

eighteen inches long and make a hole in it about one inch from the end large enough to allow a heavy piece of string to go through it. The string should be doubled and about the same length as the lath. Twist the string so that it is bound together. By taking the string at the end and swinging the lath at a good clip over the head it will produce a sound that will make you shiver.

They Saw the Point.

A primary teacher was conducting a class in fractions. One-third was being given special attention, and many imaginary articles had been divided. Still some of the pupils did not quite understand.

"Suppose," said the teacher, "Cora should find a nest with six eggs in it and while taking them to the house should break two of them, what part of her eggs would she break?"

A little girl with bright eyes and brown curls wriggled her hand so vigorously that she was given permission to speak and confidently replied:

'She would break the shells."

A merry peal of laughter broke from the children, showing that they appreciated the point made.

False Kindness.

The softest little fluff of fur!
The gentlest, most persuasive purr!
Oh, everybody told me that
She was the "loveliest little cat!"
So when she on the table sprung
And lapped the cream with small red tongue
I only gently put her down
And said, "No, no!" and tried to frown,
But if I had been truly kind
I should have made that kitten mind!

Now, large and quick and strong of will,
She'll spring upon that table still
And, spite of all my watchful care,
Will snatch the choicest dainties there,
And everybody says: "Scat! Scat!
She's such a dreadful, dreadful cat!"
But I who hear them know, with shame,
I only am the one to blame,
For in the days when she was young
And lapped the cream with small red tongue,
Had I to her been truly kind,
I should have made that kitten mind.

Relief Full Sway in Bellefonte On Sunday.

Sunday was a memorable day in Bellefonte among the Brotherhood Locomotive Engineers, as a delegation of this order came down from Tyrone and was welcomely received by the members of the Brotherhood at this place.

Brotherhood of Locomotive Engineers is a fraternal order among the bravest men living, for daily they carry the lives of thousands of human beings in their hands, and often times sacrifice their own to save others. They are a class of men whom the people in general are proud of and who are looked upon as noble men. The Brotherhood of Locomotive Engineers are not only a Fraternal Order, but a Protective Association in other words an Insurance Company who pay out on an average of $75000 a month. It is an insurance company to protect their loved ones at home. When an Engineer goes out on his engine in the morning he takes his life in his hand for he knows not whether he shall ever return again. So this Brotherhood protects them in case of the loss of an arm, leg, eye, or their life. Another good thing about the Brotherhood they are strictly opposed to strikes, when anything don't exactly suit them, they goto the Railroad Company and they explains matters carefully with them, and they nearly always win their point. They are strictly in favor of arbitration.

Bellefonte has four who belong to the Brotherhood of Locomotive Engineer's and it is impossible for them to go to Tyrone the nights this organization holds their meeting, so on Sunday, eight of the Division Force No 467 B of L. E., came to Bellefonte to instruct and help our fellows more thoroughly into the workings of the order. The meeting was held in the Undine Hose House on Bishop street. Of course we don't know what they did, but we know from the conversation of the boys that they must of had a royal, good, old fashioned time. And no doubt the Tyrone boys know that the Bellefonte fellows are not the slowest men in the world after all. We are glad they come down and it is sincerely hoped they will come often.

W. S. Smith one of the jolliest in the crowd, knew our friend Dr. Hartley the medicine man who is doing a big business in Bellefonte this week, and as Mr. Smith had gotten some of his medicine in Tyrone and it did him so much good, he ordered another half dozen bottles.

Others who were among the delegation from Tyrone were J. C. Stratiff, L. F. Stratiff, J. F. Sausaman, A. Meehan, W. H. Huss, L. W. Stonebraker and A. L. Woodring. The members of this organization in Bellefonte are Jerry Nolan, Louis Lonsberry, Claude Thompson and Edward Whittaker.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

DER PENNSYLVANIER

Mischter Drucker!—Letschte Woch is d'r Bill Großmaul ganz unexpekted aus unser Geged fort. Es is ihm zu warm worre un es heeßt, daß er naus is noch d'r Weschd. Un Niemand is sorry, daß er gange is, bekohs Niemand hot ihn gegliche. Er hot net juscht Großmaul geheeße, sundern er war ah werklich en Großmaul. Schun als en Buh, wie er noch in die Schul is, hot er mit alle Buwe Streit g'hat, un weil er ewe allfort so en groß Maul gehat hot, ware alle bang vor ihm. Wie er en großer Kerl is worre, war es noch ärger mit ihm. Wann en annerer Kerl ebbes gesaht hot, was ihn net gefuht hot, dann war sei erscht Wort: „Sei still, oder ich schlag Dir eens hie, daß Du bortzelst!" Alles hot gemeent, d'r Bill wär so stark wie en Bär un en Jeder hot sich vor ihm gefercht. Nau is es awer kerzlich rauskumme, daß sei ganze Stärk in seine Eselskinnbacke is, un des war deneweg zugange: D'r Bill un en bar annere junge Kerls ware im Werthshaus un hen Bier trunke. Do is en Fremder reikumme, hot sich ganz bescheede an's unner End vun d'r Bar gestellt un ah en Glas Bier verlangt. Er hot geguckt wie en diesenter Mensch, juscht daß er rothe Hoor g'hat hot. Des war grad ebbes vor d'r Bill. Er hot erscht den Fremde anguckt un dann zu seiner Kraub gesaht: „Wann ich ebbes haß, dann is es en Rothtopp un ich kann eeniger Kerl leddere, was sei Lewe rothe Hoor gewohre hot."—D'r Fremd hot fell aufgenumme. „Wann Du mich meensicht," segt er zum Bill, „dann bin ich Dei Kerl."—Nau hot des for d'r Bill ebaut soviel geheeße, as wie „Put p ober schut up!" un weil er gedenkt ot, er hät en leichter Dschab, so hot er sich ah grad reddy gemacht. Es war awer bal vorriwer. Eens, zwee, drei hot er en Faust zwische die Ahge gehat, daß ihm Heere un Sehne vergange is un dann is noch en Linkshänder grad f seiner Nas gelandt, daß ihm die roth rieh gelahfe is. D'r Werth hot ihm i großer Spiellumpe gewe, daß er sei chnut hot abbutze kenne un er is dann r Hinnerthür naus un heem. Seine obbies hen juscht dogestanne un den emme Mann angestaunt un mer hot ne ansehne kenne, daß sie sich gefreet n. Bal druf sen en ganze Kraub junge rls in die Werthsstub reigekumme. e hen ah Bier verlangt, hen enanner gepischbert un uf den Fremde gedeit. eller hot gemeent, di Buwe wotte ihn obere un er hot emol in sei hinnere osesack gelangt, as wann er en Re- wer heraushole wot. Unsere Buwe fell gemerkt, un eener vun ihne is esteppt un hot gesaht: „Brauchst kee ng zu hawe, mir dhun Dir nix. Mir en juscht gekumme, zu sehne, wie d'r Mann ausguckt, was des Großmaul gelebbert hot. Bis do anne hot sich noch Niemand an ihn getraut un er hot sei eegener Weg gehat. Drum freet es uns, daß er sei Meeschter gefunne hot. Drink Eens mit, Fremder!" Der hot die Einladung angenumme un hot dann gesaht, daß er wär erstaunt zu heere, so kräftige Bursche hätte sich dun sellem Kerl bang mache losse. Segt er: „Wie ich Eich do sehn, all mitenanner, bin ich schuhr, daß jeder Eener dun Eich sell Großmaul leddere kann. Mit die Großschwätzer is nie viel los un ich hab Eich gewiese, wie mer se stappe kann." Unsere Buwe hen sich sell hinnig die Ohre geschriewe.

Am nächste Dag is d'r Bill dorch's Städtel mit ere Nas wie en gute Seis Gummer. D'r Ben is ihm begegnet un es hot ihn so gekitzelt, daß er laut rausgelacht hot. Ei, hot des den Bill geärgert. Un wie d'r Ben dann noch segt: „Was nemmscht for Dei Grundbier? Ich mecht se gern hawe for So me," do hot d'r Bill ewe wieder sei gro Maul ufgerisse, daß er den Ben hermahle bät. Er hot ah schun sei Hand ufgezoge; awer g'schwind wie Blitz hot d'r Ben sei Faust dem uf's Maul geplanzt, daß er uf d'r gefalle is. „Wann Du meh hawe un dere Sort, dann sag's juscht, ich ah kee rothe Hoor hab," segt Ben. „Du hoscht nau lang genug Maul gejuhst; nau welle mir emol e Fäust juhse!" Des Ding, daß d'r en den Stärt gemacht hät, hot sich bal umgeschwätzt, un des Großmaul ot ch geschämt, daß er sei siewe Sache usammegepackt hot un is fort—wie sei eit sage, nochem Weschte. Dort is er m rechte Platz. Er soll zu die Kaubys gehe. Sell sen die Kerls, was er die Stiewel zittere mache kann. Verscht kann er noch mehner lerne.

BLACK ELECTED.

Chosen as Commander-in-Chief of the Grand Army at San Francisco.

WILL MEET NEXT YEAR IN BOSTON

The Thirty-Seventh Annual Encampment Opened in Regular Session on Thursday Morning.

THE REPORTS OF THE OFFICERS

SAN FRANCISCO, Cal., August 21.—The thirty-seventh annual encampment of the Grand Army of the Republic opened yesterday morning at the Grand Opera House. Commander-in-Chief Thomas J. Stewart read his annual report which was received with applause.

The report of Senior Vice Commander-in-Chief William M. Olin was then presented. His principal official duty during the year had been to represent the National encampment at the dedication of the statue of Major General Joseph Hooker on the state grounds at Boston.

The report of the Junior Vice Commander-in-Chief, James T. Averill, was then read.

The Quartermaster General, Charles Burrows, said in his report:

"I am able to show an increase in the grand total cash balance of $2,347 56, while the inventory of supplies on hand is only $377,70 less than at the last report, being a net increase of your treasury of $1,969.86 for eleven months, with an estimated amount due from per capita tax of $500 In response to the appeal in general order No. 2 for aid to such of our comrades as suffered from the floods in the district of Kansas I received from 299 posts and individuals the sum of $3,030 which I have forwarded to the department commander, A. W. Smith."

The report of the judge advocate, Alfred B. Beyers, was of a technical nature.

The commander-in chief appointed committees and the various reports were referred for action.

A proposition to admit Sons of Veterans into the Grand Army posts was strongly supported, but after an extended debate was defeated by a small majority.

The encampment adopted resolutions requesting Congress to pass a bill pensioning all veterans who have reached the age of 62 years.

Boston was selected as the place in which the encampment of 1904 will be held, and these officers were elected:

Commander-in-chief, General John C. Black, of Illinois; senior vice commander, Colonel C. Mason Keene, of California; junior vice commander, Colonel Harry Kessler, of Montana; surgeon-in-chief, George A. Harmon, of Ohio; chaplain-in-chief, Winfield Scott, Arizona.

The only contest of officers was over chaplain, for which two ballots were taken. On the first ballot Bross, of Nebraska, received 288 votes; Scott, of Arizona, 306, and Bradford, of Washington, 35. Bradford withdrew and Scott was elected on the second ballot.

Boston and Denver were the only places named for the next place of meeting. Before the ballot had proceeded far it became apparent that Denver had no chance and it was withdrawn. Boston was selected by acclamation.

A Jolly Camping Crowd.

Friday morning a merry crowd of young people left on the 9.32 train bound for Butler's Grove, about one mile west of Howard where they will go into camp for ten days. This perhaps is the prettiest spot along the Bald Eagle creek, as the boating is fine, swiming is right up to date and a good cold spring of water is handy the camp. The farmers around are kind, and furnish fresh butter, eggs, bread and milk at small cost. The party was made up of the following young ladies and gentlemen: Misses Blanche Shaughnessey, Jennie Irwin, Daisy Sibert, Jennie Longacre, Kathrine Irwin, Mame Hindman and Messrs. John Henderson, George Miller, Mac Heinle, William Brouse, and Rash Irwin. We sincerely hope that "old Sol" in his warm rays of sun beams will smile on them all during their tour of encampment, and that they will have a royal good time.

Bellefonte Teacher Goes to Jersey Shore.

The Jersey Shore school board has just elected Prof. John F. Harrison of this place as superintendent of their grammar school for the ensuing year. There were seven applicants for the position.

Prof. Harrison has taught in the schoole here for several years and is fully capable of filling the position satisfactorily. We congratulate him on his appointment and wish him great success believing him just the man to direct the minds of the young people of Jersey Shore in the right direction.

WRECK AT FOWLER.

One Man Killed and Another Injured—17 Cars Off the Track.

Quite a disastrous wreck occurred at Fowler Station on the Bald Eagle Valley Division of the P. R. R., Thursday evening at about 5 o'clock, and as a result one man was killed another injured and seventeen cars wrecked. While a heavily loaded train was coming down the grade at a good rate of speed a wheel broke and the following seventeen cars, loaded with coal and fire brick, were derailed and piled up completely covering both tracks.

Brakeman Eckert, of Tyrone, had his ankle broken and was taken to Tyrone. In clearing away the wreckage an unknown man was found dead. He was a man about 55 or 60 years of age, heavy set and wore a gray moustache. A union card No. 1085 was found on his person which gives a clue to his identity. It bore the name of Thomas Coates, a member of the Moulders Union, Franklin, Pa. The body was turned over to the Centre county commissioners and by them sent to Undertaker H. P. Harris of this place to prepare for burial. The County authorities are communicating with the members of the Union at Middletown and Williamsport and it is believed they will take charge of the remains.

The Altoona wreck crew and a big steam derrick went to the scene to clear away the wreckage but it took several hours to get the tracks in condition for traffic.

LATER:—H. M. Geistwhite of Local 183 Iron Moulders Union, of Williamsport arrived in Bellefonte Friday afternoon and with Frank P. Davis of this place positively identified the remains of the unfortunate man as those of Thomas Coates. The funeral took place Saturday afternoon at five o'clock in the lecture room of the Methodist church, Rev. Wood, officiating, under the auspices of Local 183. Interment in the Union cemetery here. The unfortunate man had no family and had been traveling from one town to another workidg at his trade.

A Fireman Badly Injured.

Philip Landen, of Tyrone, was on his way back home Saturday evening after firing on extra local No. 56, to Lock Haven, and was helping the fireman on the engine on which he was riding. After finishing a trick at firing he went out between the cab and tank of the engine and put his head out to far, and was struck by a steel car which was standing on a siding near Wallace Brick yard at Milesburg. The unfortunate man was picked up and brought to the Bellefonte Hospital where his injuries are being treated by our best medical skill. The report from the hospital this morning is that he is doing fairly well.

Teachers' Interstate Examination Course.

Teachers wishing to prepare for examinations should write, at once, to Prof. J L. Graham, LL. D., 152-154 Randolph Building, Memphis, Tenn., for particulars concerning his special Teachers' Examination Course.

This course is taught by mail, and prepares Teachers for examination in every State in the Union. Leading educators pronounce it the best course ever offered to the Teaching profession, and all Teachers wishing to advance in their profession should immediately avail themselves of it. Enclose stamp for reply.

Died at the Hospital.

Mrs. Annie Zimmerman died Friday night at the hospital aged 24 years. The remains were taken to the home of Mrs. William Walizer, Jr., at Mackeyville, where the funeral was held this afternoon at 2 o'clock.

Mrs. Zimmerman is survived by her father, Isaac Bartley, of Bellefonte, one sister, Mrs. William Walizer, of Mackeyville, and two brothers, R. O. Bartley, of Oak Grove, and W. W. Bartley, of Bellefonte.—Lock Haven Express.

HUNTING CARIBOU.

One Shot Through the Heart, Ran Two Hundred Yards.

The caribou is very tenacious of life, says S. W. Watts in Collier's Weekly, writing about hunting these animals in Newfoundland. My companion used a 30.40 Winchester and the writer used an .8 Mannlicher. With such strong guns we were seldom able to stop a big stag with a single shot, even when hit in a vital spot. One that the writer shot through the heart ran with the rest of the drove for 200 yards, as though he had not been touched, before collapsing. When we opened him, he had only one bullet hole and h's heart was cut in two. Another went about the same distance on the jump with both fore shoulders broken and a bullet through the neck. On several other occasions the stags when hit went off with such strength that when they fell they dug their antlers in the ground and turned complete somersaults.

The first caribou we killed was a fawn. We picked him out because we wanted meat, and, being young, we thought he ought to be tender. In fact, however, his meat was almost useless—lean, tough, stringy and very dark in color. This was difficult to understand, and the guides, for some reason, were unable to offer an explanation. However, I learned the reason later. It appears that during the mating season the fawns are weaned. The old stag, driving the fawn away from the mother, will strike him with his horns and chase him half a mile. As soon as the stag gives up the chase and turns back to the doe the fawn will return; then the stag will chase him again. This is kept up for eight or ten days, with the result that from worry, violent exercise and change of diet the meat of the fawn becomes for a time unpalatable.

THE APOSTLES.

Emblems Bestowed Upon Them by the Mediæval Artists.

The mediæval artists, having no idea of the personal appearance of the Saviour's followers, adopted a set of signs, or emblems, for each, which soon became familiar to all. The emblem of Peter was either a large key or two keys crossed, which is readily explained by referring to the words of Christ (Matthew xvi, 19), "And I will give unto thee the keys of the kingdom of heaven." The emblem of Paul was a sword and a book—the latter to remind the beholder that he was a teacher of men, the former to indicate that he was beheaded with a sword. St. Andrew was usually figured standing by a cross shaped like a letter X, that being the form of the cross upon which legend says he was crucified. The emblem of St. James the Great was either a sword, referring to the fact that he was also beheaded, or a pilgrim's staff, he being a great traveler.

St. John's emblem was a caldron, referring to his experience in the boiling oil. St. Philip's emblem is an enigma. It was a spear and a cross, yet it is known that he was hanged. St. Bartholomew, who was "flayed alive," is represented with a knife and his skin hanging over his arm. Matthew's emblem is a square, supposed to have some reference to Christ's calling. St. Thomas, having been "pierced with a dart," is pictured carrying a spear. The emblem of James the Less was a club, he having been "beaten to death with a faggot;" St. Matthias an ax, he having been beheaded. Simon's emblem was a saw. The legend says "he was sawn asunder."

BOGUS FOOD IN GERMANY.

Consul General Guenther Tells of Some Adulterations.

Richard Guenther, United States consul general at Frankfort, under date of July 7, sends the following report on food adulteration in Europe to the department of state, says the New York Times:

An article on the adulteration of food products is going the rounds of the German press. It is stated, for instance, that an ordinary liver patty is made into fine "Strassburger" pate de foie gras by means of borax or salicylic acid and of finely chopped and cleverly distributed pieces of black silk, representing truffles.

Cosmos, a German paper, guarantees the fact that under the label of canned lobsters the soft parts of the cuttlefish and crabs are sold.

In Paris snails are of late very popular, and the adulterators mix them with lungs of cattle and horses. Even entirely artificial snails are manufactured. The shells, recoated with fat and slime, are filled with lung and then sold as "Burgundy" snails.

Lovers of fresh rooster combs are imposed upon by a substitute cut out of hogs' intestines. Chopped artificial truffles are made of black rubber, silk or softened leather, and even whole truffles are made out of roasted potatoes, which are given a peculiar flavor by adding ether. They are said to sell well.

Fish spoiled in spite of ice and borax is treated with salts of zinc, aluminium and other metals. Rubbing the fish with vaseline to give it a fresh look and covering the gills with fresh blood or resin—a coal tar color—is resorted to. The latter is also used to intensify the red color of inferior crabs. Imparting a greenish color to oysters is another adulteration. An oyster requires about one month in the beds to acquire the greenish color. As this is too long a time, the dealers help them along with an artificial color.

The chemists in the Paris municipal laboratories have shown that tomato jelly is adulterated with turnips, and powdered pepper contains a large mixture of powdered hard tack.

DRESS HINTS.

It is a wise woman who chooses one good hat rather than four indifferent ones.

If you value your eyes don't wear a veil with black dots or one woven with double threads.

Dainty women are careful about their neck fixings. Stocks and collars should always be of the latest pattern.

Long kimonos are delightful to wear in one's room, though some content themselves with a short one over the petticoat.

Thread which has been soaked in water overnight, then slowly dried, will be found much better for machine use than thread which is used au naturel. Seams that are stitched with it will neither draw nor stretch.

For a quick "first aid" in removing a grease spot try dry cornstarch. Often it will do the work acceptably and is always safe to experiment with even on the most delicate fabrics. Dust off the first application and repeat once or twice.

A dressmaker's device for preventing skirts of very thin, soft materials from falling in at the back is worth noting. She advises sewing a featherbone tape down the center back seam of the foundation skirt. If this is not sufficient put the featherbone in the side seams also.

Standing Correctly.

The art of standing correctly makes all the difference between a stately and an awkward carriage, and it is such a simple art that every woman should learn it. A certain much admired lady on the shady side of forty was once asked what she did to keep her figure so erect and youthful looking.

"I remember to practice the advice given me by my grandmother when I was young," she replied.

"What was that?"

"Always to keep the knees stiff when standing. The old lady kept this rule herself, and her stately air was the admiration of her friends. I shall never equal her, but her advice has proved very useful to me. Try it for yourself, and you will soon find how your appearance improves."

An erect carriage gives a woman the smart appearance which is so much admired, and it would be worth striving after even at some inconvenience. The old grandmother's method, however, demands nothing but the exercise of memory until correct standing becomes by force of habit second nature.

The Sick Room.

The American Journal of Nursing urges upon the impromptu nurse in the private home, whether city or country, not to shake blankets and clothing that have been in the sick room out of the windows. Moist sheets hung outside of the door of the apartment in which there is a contagious case, says this authority, will do much to prevent the passage of infectious dust to other parts of the house. A weak solution of soda or carbolic acid should be used to keep this barrier wet and should be applied by some one on the "clean side" of the apartments. Soiled linen should be placed under water in the sick room and boiled before being handled by any one outside. Nothing should be taken to the laundry in a dry condition. The patient's silver and dishes should be cleansed in the room and before returning for general use should be thoroughly boiled.

Woman's Figure.

There certainly has been a radical change in the outline of a woman's figure during the last two or three years. It would be difficult to know what to attribute it to, but whatever or whoever is responsible a decided change for the better has been accomplished. The wasplike waist which was the fashion a few years ago sacrificed every line in a woman's figure in its effort to reduce the size of the waist. Nothing in my opinion is more ungraceful than a tiny waist with the flesh bulging both above and below it, says Mrs. Robert Osborn in the New York World. Today the fashionable woman does not care how large her waist is, provided she is flat across the stomach and the size of her hips is diminished. The present fashion of wearing the stays increases the length from the shoulder to the waist line of a woman, which, of course, gives her a more graceful appearance.

Educated Women as Mothers.

Mothers whose children despise them are themselves to blame for the sentiment, for those women are the old style servant wives and mothers. The type is today, of course, largely in the majority owing mainly to the enormous hordes of European peasants that this country harbors; even in higher caste families this degrading view of the place of mother obtains. Happily the hundreds of young women graduating annually from colleges are not only so many hundred brands snatched from the burning of ignorant and suffering motherhood, but the influence of such considerable number of self poised, mentally awakened women is simply incalculable. It will eventually lessen even the inert mass of peasant motherhood, to the joy of the women themselves and the benefit of their offspring. —Vogue.

Old Lace.

To clean and renovate lace so that it will look like new wash it in wood alcohol. The lace must not be rubbed at all nor doused up and down roughly, as it frequently tears simply from its own weight. The wood alcohol removes all the dirt and stains. When the alcohol is clear and the lace clean, stretch and pin the lace on the ironing board and leave it to dry. It must not be ironed. The effect of this on old discolored lace is

WORLD'S FAIR NEWS NOTES.

The French National day at the World's Fair in 1904 will be July 14.

Lincoln's famous private car will be exhibited in the Transportation building at the World's Fair.

Already 550 jars of fruit have been collected for Missouri's fruit display at the World's Fair.

The contract for the erection of the Pennsylvania state building at the World's Fair has been let. The structure will cost about $70,000.

Active construction operations have begun on the Pike at the World's Fair. The erection of the "Galveston Flood" and the "Irish Vill ge" began recently.

Germany will make a complete medical exhibit including appliances, instrumen s, diagrams, etc., used in medical lectures, at the World' s Fair next year.

A feature of Iowa's dairy exhibit at the World's Fair will be a statue in butter of John Stewart, the pioneer creamery man of that State. It will be life-size and will be kept frozen in a glass case throughout the Exposition.

Hives of bees with their living winged occupants busily engaged in making honey will be a feature of Colorado's exhibit at the World's Fair. Nineteen counties of the state will contribute to the collection of bees and honey, making the display a large one.

The first exhibit from Australia for the World's Fair was received recently by Colonel J. A. Ockerson, chief of the Department of Liberal Arts. It is a set of drawings showing the harbor of Adelaide, South Australia, and the extensive improvements now being made in the harbor.

Among the vegetable curiosities in Missouri's agricultural display at the World's Fair will be a cucumber two and a half feet long, weighing four and a half pounds; and a head of cauliflower which measures eight and a half inches in diameter and weighs five and a half pounds.

The site for the British National pavilion at the World's Fair having been dedicated with due ceremony the construction of the building is being rushed with the expectation of having it completed before winter. It is a large building, being a reproduction of the Orangery of Kensington Palace, London.

Broke Into Post Office at Barnesboro.

Five masked men broke into the postoffice at Barnesboro Tuesday morning, cracked the safe and got away with $1,000 in stamps and $110 in money. The robbers used nitroglycerine on the safe. There were five distinct explosions, from as many charges used in getting the safe open. Dr. J. S. Miller and Ed. Whitehead, who live just across the street from the postoffice, and J. S. Klein, who lives next door, heard the explosions and hurried to learn the cause. Three of the robbers met them as they came into the street and forced them to go back to their homes, where they watched the robbers from windows, but did not venture out again until after they had gone. The robbers were not in a hurry, even after they were discovered, for they took their time. Gathering up their tools they leisurely walked to the railroad and soon disappeared. They left no clue.

August Court News.

Reported by W. Harrison Walker.

The regular August Term of Court convened at Bellefonte on Monday August 24th 1903, with Hon. John G. Love, P. J. on the Bench, and Prothonotary Gardner, and Register Archey in their usual places.

G. S. Burrows, of Sunbury, arrived on the 9 a. m. train and took his place, as the official court stenographer.

The morning session was taken up in the presentation of motions and petitions by the several members of the bar; the instructions to the Grand Jury, of which body the Court appointed Riley Pratt, of Unionville, Foreman; the returns by the Constables of the Boroughs and Townships in the County, etc.

The application for the Charter of the Nittany Country Club was presented to the Court.

After the charge to the Grand Jury, that body retired to consider the few bills of indictment to be laid before them by District Attorney Spangler. The list of criminal cases is quite short, and no cases of much importance are for trial.

W. C. Miller Esq., of the Clearfield County Bar was admitted to the local bar on motion of Col. Reeder.

The case of Geo. Dale, A. A. Dale, Clement Dale, who survive Henry Dale dec'd., executors of the last will and testament of Christian Dale, Sr., dec'd., Versus Clement Dale and Blanche Hoy executors of etc., the last Will and testament of Christian Dale, Jr., dec'd., with notice to Blanche Hoy legatee and devisee under the Will of said Christian Dale, Jr., deceased, was continued because it was improperly on the list. This was a scire facias to revive a certain judgment.

The first case tried Monday afternoon was that of Ralph Geyer and J. A. Gardner trading and doing business under the firm name of Geyer and Gardner vs Michael Davidson and M. I. Forcey trading and doing business under the firm name of Davidson and Forcey. This was an Appeal taken from the judgment rendered by a justice of the peace, and was for the breach of a coal contract. Some time during the last winter the plaintiffs ordered some coal from the defendants who have control of a mine in this County. They agreed to ship the coal as ordered, but after some inquiry they learned that a man by the name of J. W. Gardner, who they thought was one of the partners of Geyer and Gardner, was insolvent, and without further inquiry cancelled the order and refused to ship the coal. It later turned out that the Gardner who was insolvent was not a party interested, and that they had actually rescinded the contract without legal grounds. The Court after a brief charge turned the case over to the jury and in a few minutes a verdict was rendered in favor of the plaintiffs and against the defendants in the sum of $127.75

The case of J. C. Roseman vs Jacob F. Musser, which was an appeal, was settled by the parties.

There are only two civil cases on the list for trial at this session:—Wm. Hall vs The Singer Sewing Machine Mfg. Co., and Maggie Woodring versus H M. Dunning. Both these cases are appeals from the judgment rendered by a justice of the peace. A report of the facts in each case will be given later.

The Grand Jury ignored the bill of indictment in the case of Commonwealth vs Ernest Viard, who was indicted by Policeman Boalick of Philipsburg, for resisting an officer and for assault and battery, and placed the costs upon the County. A cross suit was instituted by Mr. Viard against the Policeman for assault and battery and the Grand Jury ignored this bill and the Court sentenced Mr. Viard to pay the costs of prosecution or go to jail.

The first criminal case tried was that of Commonwealth versus Earl Midlan, Ray Crispen, Frank McCartney, and Thos. McCloskey, who were charged with the larceny of money from the store of Mr. T. B. Buddinger at Clarence. T. B. Buddinger was the prosecutor. A nol pros was entered Tuesday morning as against Crispen and McCloskey. Neither of the defendants were fifteen years of age.

The Commonwealth alleged that some time during the month of July and part of August cash was missed from the money drawer in the Clarence store, and no trace of it could be found until after the clerks had put a $20.00 bill in the drawer, locked it and left the room for a short time. In less than ten minutes the $20.00 bill was missing and when they called to one of the above defendants he told them that he had found the money on the floor. They then made a further search and found that another similar bill that had been lost was presented at a store in Snow Shoe to have it changed for one of the boys. They were immediately arrested and given a hearing and bound over for Court. No testimony was given on part of the defendants and after the jury was out for half an hour returned a verdict of guilty and asked the mercy of the Court in imposing sentence upon the youths.

Antonia Pitcoraig who was charged with the crime of larceny by Peter Krisporagi, was acquitted by the jury. Geo. Kachick acted as interpeter for the parties.

Keturah Colpetzer who was charged with an assault and battery by Margaret Tressler was found guilty by the jury and sentenced to pay the costs of prosecution and a fine of ten dollars.

George Garman who was charged with the crime of larceny by W. H. Crissman entered his plea of guilty. The Court suspended sentence for the time being.

Edward McCullough entered a plea of guilty to the crime of adultery and was sentenced to pay the costs of prosecution, a fine of $50.00 and to the jail of Centre Co for a period of nine months.

DOINGS IN SOCIETY.

Major Fred Reynolds and his wife celebrated their tenth wedding anniversary on Monday evening at their beautiful home on the corner of Linn and Allegheny streets. Many guests were present. HOWARD S. YEAKLE DEAD

Killed in Pittsburg on Tuesday August 17 th.

Mr. Howard S. Yeakle who has been employed by the Pennsylvania Railroad Company for the last couple of months at Pittsburg, Pa., was killed on Tuesday August 17th at 1:10 p. m. in the performance of his duty.

Mr. Yeakle was graduated from the Pennsylvania State College on last Commencement and was one of the best and most popular men of the very large class graduated at that time.

The news of this sad accident came as a severe blow to Mr. Yeakle's very large and warm circle of friends in State College and vicinity. Much sympathy is felt for his parents who reside in Norristown, Pa. in this their time of terrible grief.

The Wallace Circus Bands.

For several seasons the Great Wallace Show has featured the musical portion of its entertainment. Mr. Wallace fortunately secured the celebrated "Bronson's Cornet Band" for a term of years. The director of this band is Prof. E. Z. Bronson, a prominent composer and an author of band music from his childhood and having had years' experience with the leading bands of the country, in serving in the capacity of First Assistant Director with Sousa, he is fully prepared to handle his fifty-four musicians with the Wallace Circus in a most satisfactory manner.

All who have seen the Wallace Shows know that the Bronson Cornet Band is one of the most prominent and attractive features any circus can have. For forty-five minutes preceding each performance, from the center of the stage, the band will render a programme of the highest grade of classical and popular music, in Bellefonte, on Tuesday Sept. 8, the date of the exhibition of the Great Wallace Shows in this city.

Transferred Bedbugs to Neighbor.

Cameron Count Press.

A funny case will come up in a Dunkirk court this week. A woman named Mrs. McCormick, accused a neighbor, Mrs. Dubert, of transferring a lot of bedbugs into her house. The plaintiff alleges that she had occasion to rise as early as 4.30 o'clock one morning last week and detected the defendant manouvering around a side window. She watched closely and saw her deposit a supply of the unwelcome guests on the carpet and skip homeward.

Festival at the Union Chapel.

On Friday evening the members of the Pleasant View church will hold a festival in their chapel. This is a little church that is striving hard to get along, and should have the heartiest support of all church people. Friday evening is the date, and see that you all get there.

—E. L. Petterson, boiler inspector and a general mechanic around engines who has been employed by the Central Railroad Company of Pennsylvania at this place resigned his position and has accepted a similar but much better one at Scottdale Pa. "Pete" we wish you lots of success.

—Rev. J. Ellis Bell presiding elder of the Methodist Altoona district, has received a telegram from Bishop Earl Cranston announcing that he has changed the relation of the Rev. A. S. Bowman of Hollidaysburg, and appointed him field agent of Williamsport Dickinson seminary, and has assigned Rev. G. S. Womer, of Ogden, Utah, as his successor at Hollidaysburg during the remainder of the conference year. Rev. Mr. Womer was stationed at Dillsburg until two years ago, when he was transferred to Utah mission and stationed at Ogden.

We Still Have a few Here.

The city of Williamsport will this week go into the sidewalk building business on an extensive scale, and expects to put down about a thousand dollars' worth, or more if necessary, unless the property owners hustle and get ahead of the municipality. There are thousands of feet of defective sidewalk in that city, and, as damage suits are constantly being started the authorities are not going to take any more chances, but will see that these sidewalks are put in proper repair, and the cost collected from the owners.

Fast Dropping out.

Veterans of the civil war on the pension rolls are dying at the rate of ninety a day. Widows on the pension rolls are dying at the rate of twenty a day. Despite the fact that the Spanish-American war has added thousands of names to the pension rolls, and the number of pension certificates issued for the year ending June 1st exceeded by 13,000 the certificates issued for 1902, the losses by death in each of the eighteen pension agencies during the five months from January to May, inclusive, have been greater than the gains through the addition of new names.

BROOM STOCK BOOMS

From the facts presented you will understand why stock of the International Broom Company, Manufacturers of the Twentieth Century Broom, is a gilt-edged investment, and why it is regarded as such by all who will not put their money into any enterprise unless they see great and speedy profits ahead. Owing to the quick growth and great progress of the International Broom Company the stock has been advanced to

60 CENTS A SHARE.

We would advise intending investors to avail themselves of this low price and purchase before another raise. With the various applications for sub-companies now in hand, there is no doubt that about the latter part of August the price will be advanced to

75 CENTS A SHARE.

The high place The New Broom gained in public favor is due to the Company's ability to produce solid proof of every statement.

Contract closed for sub-company in Chicago with largest broom manufacturer in the United States.

Contract closed for sub-company in New Haven, Conn.

Contract will be closed shortly for sub-company in Kansas City.

Contract will be closed shortly for sub-company in Fall River, Mass.

Contract will be closed shortly for sub-company in City of Mexico.

Sub-Company now manufacturing the New Broom in Ottawa, Ont.

All on royalties to the parent company—The Ottawa Company alone will pay the International Broom Company about $25,000 a year in royalties.

20 Other Applications for Sub-Companies Now Pending.

WE ASSERT AND CAN PROVE

That the demand for The New Broom is as wide as the civilized world.

That it is the only sanitary broom made.

That the Brooklyn factory made in April, 1903, twice as many brooms as in March and four times as many as in February, and earned a profit of more than 25 per cent. over its operating expenses on its production.

That dealers, wholesale and retail, think so well of The New Broom that they are becoming stockholders in the Company.

If we could not prove all this, and more, we should not expect any careful and conservative investor to buy this stock.

As we are thoroughly familiar with the plans and projects of the Company and the possibilities of The New Broom we unhesitatingly declare that this stock should very soon pay a dividend in the par value and rapidly advance until it sells for $2.00 or $3.00 per share.

It is, therefore, advisable that intending investors who wish to investigate this proposition do so at an early date before the next advance in price is announced. Those who subscribe now will be benefited by the increase.

Intending investors can obtain full particulars and ample proof of the claims of this Company on application at our office.

Whiskey Medicines.

The temperance press is emphasizing the danger to the home in the use of 'medicines" which are loaded with whiskey or alcohol. In this respect, as well as in the remarkable character of their cures, Dr. Pierce's medicines differ from other preparations. Dr. Pierce's Golden Medical Discovery and "Favorite Prescription" contain no alcohol, whiskey or other intoxicant, and are equally free from opium, cocaine and other narcotics. Every family should have a copy of the People's Common Sense Medical Adviser, sent absolutely free, on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo N. Y.

One Century of Chicago.

Monday, 17, was the one hundredth anniversary of the permanent settlement of Chicago, Aug. 17, 1804, Lieut. Swearingen, of the United States Army landed with a company of troops on the lake front and began the construction of Fort Dearborn to protect a handful of settlers. The ground spaded up was then worth $4 a quarter section. It is now worth $150 a square foot.

A Pension Swindler.

Pensioners are warned against having dealings with a smooth-tongued individual who is traveling the country representing himself to be in the employ of the government. He carries a small instrument with which he pretends to examine the lungs, etc., of his victims. He is a rank swindler. The only pension examiners the government has outside of Washington are the regular appointed boards in each county. This bogus examiner is about 5 feet 8 inches tall, weight about 140 pounds has blue or gray eyes and brown hair. He is aged about 32 years.

HISTORY OF THE VATICAN

Famous Residence of the Pope and His Court.

VAST PALACE OF MANY ROOMS.

Designed to Be the Greatest Christian Structure of Its Kind, It Covers an Area of About Thirteen Acres and Has Eight Grand Staircases—The Pope Has Only Three Rooms, Furnished Very Simply.

Four centuries and a half have passed since it came into the mind of Pope Nicholas V. to make the Vatican the largest and most beautiful palace of the Christian world, says the New York Herald. He planned to include within its walls all the offices of the papal government. Every cardinal was to be housed within its precincts. But little was accomplished by this pope toward the fulfillment of his purpose. All that he saw finished was the Tower of Borgia and a private chapel.

Nearly every succeeding pope has added something to the building of the Vatican until it has become an immense pile of irregular architecture descriptive of the successive pontificates and telling of the individual characters and tastes of the various popes who inhabited the palace long enough to leave some impression of their own. After the popes retired from Avignon they found their former residence on the Lateran hill in ruins and adopted the Vatican in its stead in order to obtain the greater security given by the Castle of St. Angelo, close at hand, a covered gallery connecting the palace and the fortress along the north line of the Leonine wall.

Alexander VI. constructed what is known as the old palace, called the Appartamenti Borgia, and to this part Sixtus IV. added in 1474 the Sixtine chapel. The Belvedere was erected by Innocent VIII. in 1490, and Julius II. united the Belvedere to the palace by the celebrated loggie. To Julius II. the Vatican is indebted for the beginning of the museum, and its foundations were laid in the gardens of the Belvedere under his initiation. After his death Leo X. completed the loggie, employing Raphael to direct the work.

By 1600 the section of the palace was completed which includes the ordinary residence of the pope. It is the most conspicuous portion of the mass of buildings rising above the piazza of St. Peter. The loggie were inclosed in glass by Pius IX., thus protecting from the weather the frescoes of Raphael, and in the course of his long reign he made many improvements in the picture galleries.

The special work by which Leo XIII. left his mark on the Vatican was the decoration of the Gallery of Candelabra with frescoes by Seitz, with a pavement of precious marbles and antique statuary from recent excavations, while he built a reading room for students in the Vatican library and a new wing for printed books, further conferring an immense boon on foreign students by throwing open the Vatican archives and providing them with accommodation.

The celebrated staircase, the Scala Regia, was constructed by Bernini under Urban VIII. Subsequent popes built the range of apartments for the Museo Pio Clementino and the Egyptian and Etruscan museums. The fourth side of the Cortele di San Damaso was closed by Pius IX., who reconstructed the great staircase leading from the arcades of the piazza into the court.

Altogether the Vatican palace covers an area of about thirteen and one-half acres, of which about six are occupied by the twenty courts, and contains perhaps a thousand halls, chapels, saloons and private apartments, the greater part of which are occupied by collections and showrooms, a comparatively small part of the building being set apart for the papal court.

The length of the palace is 1,151 feet and its breadth 767. It has eight grand staircases. The principal entrance to the Vatican is at the end of the right colonnade of St. Peter's, where a door on the right opens upon the staircase leading to the Cortile di Damaso. The famous Sixtine chapel, which figures so prominently in connection with a pope's death and the election of his successor, was formerly hung on festivals with the tapestries executed from the cartoons of Raphael. The upper portion is decorated in fresco by the great Florentine masters of the fifteenth century. On the pillar between the windows are the figures of twenty-eight popes by Sandro Botticelli. The vast fresco of "The Last Judgment" occupied Michael Angelo seven years and was finished in 1541 under Paul III.

Only those strangers admitted to a special audience ever see the small portion of the Vatican inhabited by the pope. The three rooms occupied by the pontiff are furnished with the utmost simplicity. They consist of the bare green saloon, the red saloon, containing a throne flanked by benches, and the bedroom, with yellow draperies, a large writing table and a few pictures by old masters.

From the windows of the Egyptian museum one can look down upon the inner garden of the Vatican known as the Giardino della Pigna, from the famous Pigna, a gigantic fur cone, said once to have crowned the summit of the mausoleum of Hadrian.

The garden was the second great quadrangle of the Vatican, planted with shrubs and flowers under Pius IX., but has been neglected for many years. From the outer courtyard one enters the larger garden, but as this was constantly used by the pope admittance was gained to it only as a

HEAVY WEIGHTS IN SENATE.

The Reminiscences of a Washington Upholsterer.

John R. Zimmerman, late upholsterer and cabinet maker of the senate for so many years, says the Washington Post, enjoyed an interesting experience in his personal association with the great men of the senate, inasmuch as it was his duty to provide comfortable seats in the northern chamber of the capitol, and he at times referred to this experience. About a year ago, when asked about a special chair that he had to provide for the late Senator David Davis of Illinois, who came to the senate in 1877, Mr. Zimmerman said: "The great chair that was made many years ago for Senator Dixon H. Lewis of Alabama, who weighed 450 pounds, was brought into the senate chamber for Judge Davis, as he was a very large man. Senator Davis was shown the seat that had been provided for him. He looked at the huge seat for a moment and then turned away in disgust, remarking at the same time:

"'I don't care for a sofa to sit on. When I lie down I will go to the cloakroom. No; that will not do," continued the great Illinois senator.

"The Lewis chair was moved away and another made, which you will find in the senate judiciary committee room," remarked Mr. Zimmerman. "The impression prevailed for some years that Senator Davis occupied the Lewis chair, and it was not until the world's fair at Chicago in 1893 that the matter was cleared up. The managers of the fair secured the Lewis chair for exhibition as the one used by the senator from Illinois. It was soon learned that it was not the one used by Mr. Davis and placed aside. The Lewis chair was returned and is now in the custody of the senate cabinet rooms."

SIR THOMAS' PLAYMATE.

Woman at Ellis Island Remembers Baronet as Barefoot Boy.

In spite of the change from a barefoot boy playing in the heather to a baronet, commander of a cup lifting flotilla, Mrs. Catharine Murphy, aged sixty, is sure she would recognize in Sir Thomas Lipton the playmate of her childhood, says the New York World.

"I don't know whether he would remember little Kittie Lindsay, which I was called in those days, but many's the good romp we have had together when we were children," the old lady said.

Mrs. Murphy is detained on Ellis island while the immigration authorities are trying to locate her two sons, whom she has traveled across the seas to visit.

Mrs. Murphy told Peter Grogan of the Irish Immigration society, who is assisting her, that she keeps a little notion store in Glasgow, Scotland. After years of saving she got together enough money to come to this country in search of her boys, whom she has not seen in ten years.

"My father's name was Lindsay, and Sir Thomas Lipton's father kept a provision store next door to our house," Mrs. Murphy said. "I used to play with him when he was a bright, barefoot boy, but none of us ever thought he would grow up to be such a great man.

"All the people in Glasgow think the world of him, and every one is wearing a shamrock there now, I am sure, as they have in years when he came here to race with your yacht. And maybe, after all," the old lady said wistfully, "he will remember little Kittie Lindsay."

Made Insane by Crazy Club.

Professor Jabez Burkes, who in a moment of eccentricity and out of a spirit of fun started a "crazy society" at Pottsville, Pa., says a dispatch from that place, has become unbalanced by the success of the venture. Burkes advertised his scheme extensively in newspapers and received many applications for membership. The wide notoriety he attained in a few weeks completely turned his head, and he insisted on making speeches, singing songs and dancing at inopportune times and places. Owing to these peculiar eccentricities the police have been obliged to arrest him, and he is now in the county jail.

Automobile For Sahara Desert.

Tourists in Egypt will soon be able to cross the Sahara desert in a four mile an hour automobile specially constructed for traveling over sandy wastes. The vehicle is to accommodate forty passengers. While the speed seems slow it is greater than that of canal transportation.

LOCAL DEPARTMENT.

—Lots of things are done well that are not worth doing at all.

—The dressmaker should know all about the eternal fitness of things.

—Many theories are excellent until you try to reduce them to practice.

—The fellow who complains that he leads a dog's life naturally growls about it.

—The opinion we have of ourselves is never so valuable as the opinion other people have of us.

—On and after September 1 the station at Lamborn on the Bellefonte Central Railroad will be discontinued.

—In the international yacht race this afternoon between the Reliance and the Shamrock the American boat won by eight minutes.

—The four night festival of the Alpha fire company came to a close at State College on Saturday night; the gross receipts being $405.00.

Miss Nora Irvin, of Pittsburg, is visiting Mrs. L. P. Lounsbury at her home on South Spring street.

—Mrs. Annie Carter gave a party last evening at her residence on High street in honor of the 21st birthday of Miss Daisy Harris.

—The marriage of Miss Beu'ah Stere daughter of Mr. and Mrs. I. B. Stere, of Unionville, and Jasper Holt will be celebrated on Thursday, the 27th.

—A crazy Hungarian made his escape from the Somerset county almshouse the other day by scaling a seven foot fence while manacled with handcuffs and a 60-pound ball and chain attached to one of his legs.

—The work of laying the large pipe from the Spring to the proposed new pumping station at the Phoenix mill has been begun and it will soon be settled as to whether there is enough water power there to pump the water that Bellefonte drinks.

—The Masonic fraternity and their families will hold their first annual outing and fishing camp at "Dowdy's Hole" below Curtin's Works on Wednesday August 26 and continuing ten days. September 1st will be Ladies Day.

—Mrs Eliza Geissinger, relict of William Geissinger, and the mother of Dr. J. D. Geissinger, formerly of this place, died at her home in Shirleysburg, Huntingdon county, on Thursday, August 13th. She was born Jan. 10th, 1814, and had been a member of the Reformed church since 1823. Interment was made at McConnellstown on Saturday.

—Those fellows who are complaining that the stock markets are costing them money should remember that there's only one way to win in that game: Buy when stocks are low, and sell when they are high, Those who want to know how to tell when the stocks are going to move up or down the scale had better consult a dream-book. That's as sure as any.

—Rachael Katharyn, the only child of Mr. and Mrs. Clyde Z. Long, of Howard, died on Saturday evening, at 9 o'clock, of cholera infantum, aged 9 months and two days. The little one had not been sick over 24 hours. The funeral took place on the following Monday afternoon at 2 o'clock from the house. Interment in the Schenck cemetery at Howard.

—The viewers on the abondonment proceedings in the Old Fort and Mifflinburg turnpike case have been in session in the arbitration room in the court house most of the week with many witnesses before them. The board is composed of H. T. McDowell and A. M. Schench, of Howard; J. M. Boal, of Centre Hall, and W. C. Patterson, of State College. They adjourned Thursday until Sept. 22nd.

—Three years ago Blair Hurley, of Bedford county, lost a five dollar bill in his barn. A few days ago he came across a bumblebees' nest at the building and upon examing it closely discovered that the insects had used a greenback in constructing their home. Placing the fragments together Mr. Hurley found that he had a five dollar bill, most likely the one he lost. He will ask "Uncle Sam" to redeem the tattered and torn money.

—A peculiar accident happened to the freight engine one day last week when approaching Spring Mills. It appears the two middle drive wheels left the rails and thus the engine ran for a hundred feet or more when the wheels left the track, the engineer threw on the air-brake and the crew jumped for their lives. On removing the heavy rails, they curled up in all shapes, which demonstrated the wonderful strain on them.

—"I had a running, itching sore on my leg. Suffered tortures. Doan's Ointment took away the burning and itching instantly and quickly effected permanent cure." C. W. Lenhart, Bowling Green, O.

—The good work William Bilger did in building the abutments for the Spring Mills bridge across Penns Creek no doubt accounts for the action of the county commissioners in giving him a similar contract for a county bridge across Pine Creek, Harris township.

—D. F. Fortney Esq., and Rev. H. C. Holloway D. D., of Bellefonte, Col. Austin Curtin, of Milesburg, and John A. Daley, of Romola, were among those who delivered addresses at the Clinton County Veterans picnic at Agars Park on Thursday. A vote of thanks was extended them for their earnest and patriotic addresses.

—An effort is being made to put the steam heat and the electric light plant at this place under new management. A company has been formed, with H. S. Taylor, at its head, which has offered $50,000 for the complete outfit and a majority of the stockholders have agreed to sell on that basis. If this succeeds, some material changes are promised that will insure better service in the future.

—On last Thursday Mr. Edward Hall, only son of D. C. Hall, was married to Miss Margaret Irwin, a daughter of Jesse Irwin, of Union township. Their wedding was not a pretentious affair, for they drove off to Wingate where Rev. Zeigler performed the ceremony, but on Friday a large reception was given for them at the home of the bride and on Saturday the groom's parents entertained in their honor.

—Miss Mary Harris Weaver, who is spending the summer with her father A. B. Weaver, and his family at Asbury Park, met with an accident this week which will likely relegate her to bed for the balance of her stay at the seashore. While jumping from the board walk she fell and tore the ligaments of her ankle until it was necessary to encase it in a plaster cast and confine her to bed.

—Through the kindly interest of Hon. James Kerr, of Clearfield, Lee Walker, the oldest son of W. Miles Walker, of this place, has secured a very desirable position on an engineering corps that is laying out railroads through the new coal fields in the south-western part of the State. Lee is a fine boy and will give ample return in diligent work for the interest which Mr. Kerr took in securing the place for him.

—Employes of the Hawes Fire Brick company at Mt. Union had a snow balling fight the other day. Last winter a large quantity of snow was carted out of the yard and dumped behind the stock sheds in a great pile. Later in the winter ashes were thrown over the snow. On removing these ashes it was found that the snow had not melted. The gang of workman was divided into two armies and a winter carnival was held under the August sun.

—Postmaster Montgomery wishes us to state that the time mentioned in the Collection cards on the mail boxes is correct. There was one exception, that of the box in front of the *Watchman* office. Where it says 1:40 p. m. for the after dinner collection it should read 1:30. This is due to the fact that the time of leaving for the Lewisburg passenger train has been changed from 2:15 to 2:00 p. m. A small piece of paper with 1:30 written on it has been pasted over the 1:40 thus making the correction. The *Watchman* was a little hasty in criticising Postmaster Montgomery in this matter in this weeks issue. There is no more painstaking official in the government employ than Mr. Montgomery who does everything in his power for the improvement of the service.

—W. E. Hoffman, of Tyrone, has purchased the creamery at Baileyville from the estate of Francis Rhoads. The creamery had a capacity of 15,000 lbs of butter per day, but it is not the butter so much as the cream that Mr. Hoffman is after. He is a large manufacturer of ice cream in Tyrone and with this creamery under his control he will have a supply house from which he can draw all the cream he needs. It is Mr. Hoffman's intention to put in a new pasteurizer at the plant.

"A BUNCH OF ONIONS."

Unique Title of a Club Formed by Amateur Journalists.

MEMBERSHIP LIMITED TO TEN.

When an "Onionite" Meets an "Onionite" He Is to Take a Bite or Draw a Tear, Says the Club's Constitution—Onions of Every Variety to Be Cultivated In Gardens of the Members.

Undoubtedly the "strongest" and strangest club ever organized is the one formed in Chicago recently under the unique title of "A Bunch of Onions," and it is not composed of truck gardeners either, says the Chicago Chronicle.

It was born under very happy circumstances at a well known downtown restaurant during the annual national convention of the Amateur Press association. There are just ten members in the organization and each one holds an office.

There are seven states represented in the club and the members are all enthusiastic writers for amateur publications. The object of this unique organization, as has been announced, is to bring "tears to the eyes of amateur writers."

The membership is limited to ten, and the only way to resign from the club is to die or get married. There is but one meeting each year, and at that session vacancies are filled. Each year one of the members must marry in order to create a vacancy in the club.

The onion is the favorite flower of the organization. The motto is, "In onion there is strength." The officers are as follows:

Chief odor, Louis St. Elmo, Ohio; sliced onion, Edwin Hadley Smith, New York; collector of tears, Miss Maisie McLoughlin, Illinois; gatherer of scents, Miss A. Eunice Frees, Illinois; official editor, Miss J. Irene Maloney, Illinois; executive board, scullion, Albert Gillespie, Indiana; fertilizer, George A. Alderman, North Carolina; sprouts, Foster Gilroy, Pennsylvania; proxy committee or guardians of the scents, Miss E. Merle Hegert, Illinois; Miss Alemdia Thomas, Missouri.

The election takes place annually, and all proxies are thrown out by the proxy committee. The members of the club may nominate, second their own nominations and vote for themselves.

The official organ of the club is to be called the Onion Skin. The publication will be in the form of an onion and printed on onion paper. What is more, the meetings of the club are to be called "reonions." The club has one "onionary" member, and that is Charles R. Burger of Colorado. He, it is said, has brought more tears to the eyes of amateur writers during the past year than any other one person. One "onionary" member is elected each year, and "onionary" mention is made of any member where such mention is due.

One of the strange laws of this stranger club is that when a member of the "bunch" visits a town wherein resides another member the visitor must invite the resident member to dinner at his or her expense. The annual dinners, which are very elaborate affairs, must be held on the last night of the annual convention of the National Amateur Press association, and members of the bunch only are allowed to attend. If only one member attends the convention he must eat his dinner with the vacant chairs of his comrades surrounding the table.

The badge of the club is an onion, and it must be worn conspicuously during a convention of amateur journalists. The constitution of the club is the shortest on record and is as follows:

"When an onionite meets an onionite he is to take a bite or draw a tear."

When the chief odor makes a decision it is perfectly in order for any member to take a-peal. The executive office is called the onion patch. Membership in the organization is eagerly sought, and there is already a campaign on for the first vacancy.

Carl Hegert of Chicago thinks the politics in the bunch is "odoriferous," and he has started an antionion crusade. He is also running for the place of onionary member in 1904.

The members announce that the club is in its salad days. All members are asked to become vegetarians and live as much as possible on the succulent onion. One of the aims of the society will be to make fried onions popular, and onions in every variety will be cultivated in the gardens of the members. Instead of confetti the members will use onion seed in time of carnival. After eating a hearty dinner recently in which onions figured extensively one member dreamed the following bill of fare:

"Onions; young onions; old onions; onion sets; fried onions; boiled onions; stewed onions; pickled onions; preserved onions."

This member is trying now to have this menu adopted as the official bill of fare. No member may, upon pain of a heavy fine, eat anything to remove the scent of onions from his or her breath.

Diminishing Heights of Floods.

It is suggested that the height of the Mississippi's floods could be diminished, with great incidental profit to agriculture, by building reservoirs in its western branches.

A hen in Bromley, England, is alleged to have laid an egg which weighs a quarter of a pound.

Tiling Replaces Bridge.

Three sections of six foot cast iron tiling has been substituted for a thirty-foot bridge on the L. and T. R. R., near Goodhart's, east of Centre Hall. These tiling were placed in position last week, and later the road bed will be filled in. Each section of tiling weighed about fourteen thousand pounds, the combined weight being fifty-two thousand seven hundred and sixty-six pounds, or a little over twenty-five tons. Trackmaster James H. Smetzler, and assistants, Messrs. John Puff, J. Wesley Whiteman and John A. Martz assisted the construction crew to lay the tiling.

Short bridges will gradually disappear by the substitution of metal viaducts, making railroading less hazardous.

Curtin Statue Arrives.

Philadelphia, Aug. 22—A bronze statue of Andrew G. Curtin, the war governor of Pennsylvania, which is the work of Michael Ezekiel, an American artist temporarily residing in Italy, has arrived at the custom house, in bond, from Rome. It was brought to New York on the Italian steamship Umbria and shipped to Philadelphia. Efforts are being made to have it admitted free of duty because it is the work of an American Artist.

The statue is to be placed on the Smith Memorial in Fairmount Park. It is said to be correct likeness of the noted Pennsylvanian.

—George Bayard who has been clerking in a drug store at Arcadia has resigned that position and accepted one in Harvey's drug store at Glenn Campbell.

—Clyde McKinley, one of Milesburg's foremost young men accepted a position with the Pennsylvania Railroad Company sometime ago as a brakeman on one of the Valley freights. They found in him a good workman, and the result was, he is now a brakeman on passenger 53 that comes into Bellefonte at 1:05. We wish him success in his work and we feel sure the Company will find in him a faithful employee.

Women Who Wear Well.

It is astonishing how great a change a few years of married life will make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness. As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and the form at once witness to the fact in renewed comeliness. Half a million women and more have found health and happiness in the use of Dr. Pierce's Favorite Prescription, It makes weak women strong and sick women well.

—Something of a sensation was created in Lock Haven on Thursday by chickens scratching up the dead body of an infant on the premises of Rev. M. S. Jones.

The Reading Lamp.

A good reading lamp is one of the necessities of life. An artistic and only moderately expensive lamp may be made by slipping a plain metal lamp into a terra cotta jar such as are used by florists to display carnations, tulips or hyacinths. A knotted covering of uncolored raffia improves the jar and harmonizes well with the Japanese lamp shade, green and white, with a touch of scarlet which crowns the whole.

Using an Oil Stove.

If you want an oil stove to burn without giving out an unpleasant odor, clean and refill it every time after using. If you allow dirt and oil to accumulate on it, it is sure to smell unpleasant. Always turn the wick down low before putting it out and leave it turned down till the stove is again needed. If the wick is turned high, it draws the oil up, and so it spreads over the outside.

Shell Portiere.

An exceptionally pretty portiere is made by stringing the pearl shells, such as lamp shades are made of, and letting the strings hang loose. The effect is that of thousands of fluttering rose leaves, and the rustle made as the breeze passes through the strands is pleasingly suggestive.

The housekeeper who wishes to keep her family healthy will use apples freely, not eternally in apple sauce and apple pies, but in ways that vary and banish monotony. Apples, raw and cooked, even stewed dried apples, are better for constipation than liver pills.

TRAINS TO CARRY MAILS

Federal Plan to Improve the Postal Service.

RAILWAY MEN TO HANDLE BAGS

Government Authorities to Assume Responsibilities For All Packages Intrusted to Employees of the Railroads—Protection Against Violence Will Be Accorded.

Postmaster General Payne has decided on an important step which will practically put the railroads of the country under the protection of the United States government and prevent interference with interstate commerce by strikers, says a Washington special to the Chicago Tribune. This will be accomplished by making every railroad train a mail train and by commissioning railroad conductors, baggage masters and other trainmen as employees of the United States postal service and empowering them to handle mails.

The agitation which really led to the adoption of the new policy has been growing for several years and is the result of the tremendous growth of the rural free delivery service. This service has resulted in more than quadrupling the circulation of newspapers throughout the country in the period of six years.

Protests were received at the department from the entire country regarding the inefficiency of the mail train service. Officials have endeavored to devise a means of relief. After long consideration it was thought impossible to arrange any plan which would prove satisfactory to the government, railroads, publishers of newspapers and the millions of subscribers. The fact that the government requires all mails to pass through the post offices and handles them only in sealed pouches was the greatest drawback to the quick service desired and, in fact, to the sending of United States mails on any except mail trains.

The postal officials declined to enter into an agreement whereby they would be responsible for mails not carried in closed pouches and handled by sworn employees. Nothing was done until Mr. Shallenberger gave the matter his personal consideration and devised a new plan. It is really an amplification of the system used by the publishers of newspapers in sending out their mail editions. It has been the practice of publishers to intrust bundles of papers to trainmen on trains which do not carry mail, with instructions to throw off the packages at certain points. This system has not been entirely satisfactory.

The government has now decided to assume the responsibility for the carriage and delivery of these newspapers and will commission and pay salaries to the trainmen over and above the compensation received for the regular work. In putting into effect this far reaching policy each case where additional facilities are needed will be considered separately. When the request for additional mail train facilities is received at the department an employee of the railway mail service will be assigned to the case and will attend to the preliminaries of looking to the commissioning of trainmen as employees of the postal service and of arranging the schedules.

Any train—passenger, local or freight—will be empowered to carry mails, and the United States will hold itself responsible for their delivery. This means that in case of a strike every train which carries these special mails will be just as much under the authority and protection of the federal government as through and local mail trains which run on a regular daily schedule, and when all the arrangements have been made and the plans of the department put into effect there will be few trains which are not either regular or "special" mail trains.

In case of interference with any of these specials during the time of strike or mob violence the United States must under the statutes afford it the same protection, by federal troops if necessary, that has been and will be given to the regular mail trains.

The government will be permitted to settle upon the salary to be paid to the trainmen. At the coming session of Congress Postmaster General Payne will ask for a special appropriation to pay the salaries of these special employees.

Hash and Horse Radish.

Hash is made more appetizing if served with horse radish sauce. The same is true of cold meats and of that humble dish, boiled beef. A thin cream sauce is the foundation, and the horse radish added is the freshly grated root and not that which has been mixed with vinegar. Allow it to cook for about three minutes and serve hot.

Girls and Ball Throwing.

"Ball throwing I do not advise to any great extent for girls," says Dr. Luther Gulick, physical director of the public schools of New York. "It makes the clavicle prominent and destroys the symmetry of the neck, a fact every girl is likely to regret when she is older and begins to wear evening gowns."

The Lipton Stocking.

The girl who wishes to show her partiotism for the Irish knight, yet dislikes to swerve from her patriotism, wears dainty silk stockings with double emblems embroidered on the instep, says the New York Evening Journal. The colors of Sir Thomas Lipton's club and that of his American competitor appear prettily on the up to date girl's ankles. This fad promises to become an absolute craze during the all exciting days of the great contest.

PRAISE FOR MILES

The Grand Army of the Republic Passes a Congratulatory Resolution.

HAS AN HONORABLE CAREER

Annual Encampment Adjourned Finally Friday to Meet Next Year in City of Boston.

MANY RESOLUTIONS WERE PASSED

SAN FRANCISCO, Cal., August 22.—The national encampment of the Grand Army of the Republic closed its thirty-seventh annual session Friday afternoon after a protracted morning session. The newly elected officers, with the exception of Junior Vice Commander Kessler, who is now on the way from the Philippines, were installed. Commander-in-Chief Black announced the following appointments:

Adjutant General C. W. Patridge, of Illinois; Quartermaster Major Charles Burrows, of New Jersey; Judge Advocate General James Tanner, of New York; Inspector General E. B. Wesson, of Iowa.

The committee on resolutions presented a number on which action was taken. The proposition to make all past adjutant generals members of the encampment was defeated. A resolution favoring legislation to prevent, by education and in other ways the desecration of the flag, was adopted.

The endorsement by the committee of the service pension law was approved.

The proposed establishment of national soldiers' homes at Fort Sherman, Idaho, in Florida and in Oklahoma was endorsed.

It was resolved to appoint a committee of five to investigate cases of discrimination against veterans in the civil service.

The encampment unanimously adopted the following resolution, introduced by Captain Conroy, of Topeka, Kan.:

Resolved, That we congratulate that splendid soldier, exemplary commander and patriotic citizen, General Nelson A. Miles, upon his attainment of a distinguished and honorable retirement after a matchless record as a soldier of over forty-two years service, without any just criticism of his official conduct, which began as a lieutenant in the Twenty-second Massachusetts infantry, progressing by the brightest page of heroic patriotism from Manassas to Appomatox, during the Civil war, and illuminating this record further by his great military achievements as a successful Indian fighter and again as a great and judicious military disciplinarian and organizer.

CONSUMPTION THREATENED.

"I was troubled with a hacking cough for a year and I thought I had consumption," says C. Unger, 211 Maple St., Champaign, Ill. "I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar not since." C. M. Parrish.

FEAR.

HOW IT MAY BE OVERCOME.

Fear is not always a lack of courage. One may be absolutely fearless when facing real danger, but a perfect coward about trifling matters. Many people fear to be in a crowded hall, and frequently, and unnecessarily, leave some enjoyable affair and return home. Thousands fear lightning to such an alarming extent, that during a thunder storm they become ill. Fear of this character is caused by a nervousness brought on chiefly by diseases of the kidneys and bladder.

A further proof that these organs are diseased, is ascertained by depositing a small quantity of urine in a glass tumbler and if after standing twenty-four hours you find it ropy or milky in appearance; if it has a sediment; if your back pains you, and you often have a desire to urinate during the night, with burning, scalding pains; it's the strongest kind of evidence that your kidneys and bladder are diseased and the very strongest reason why you should not delay in trying DR. DAVID KENNEDY'S FAVORITE REMEDY, the pathfinder in medicine, for diseases of the kidneys and bladder, liver, rheumatism, dyspepsia and constipation.

We are so absolutely certain of the curative powers of Dr. David Kennedy's Favorite Remedy, that we will send you a trial bottle, absolutely free, by mail, if you will write to the Dr. David Kennedy Corporation, Rondout, N. Y.

Curtis Johnson, of 583 Bishop street, freight truckman, says: "I had backache and lameness across my loins for a year or more. At times the lameness was so acute I could lift nothing and if I stooped it was impossible for me to straighten. When driving there was a steady aching over my kidneys the whole time and I had a dull tired feeling which took away all my ambition. I procured Doan's Kidney Pills from F. Potts Green's drug store and they soon cured me from the whole combination of troubles and they did it quickly and thoroughly. My wife was also suffering from a tired, grinding backache and she used Doan's Kidney Pills and they invigorated her generally. She now speaks of them as highly as I do. We never came across any remedy which surpassed Doan's Kidney Pills."

A PHYSICIAN HEALED.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostrate glands. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I perscribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have perecribed it in hundreds of cases with perfect success." C. M. Parrish.
